

# 3M™ Circulation Accessories

**a Bookcheck Unit Model 942** This unit saves time and space while helping to ensure reliable processing. It effectively desensitizes and resensitizes Tattle-Tape™ Security Strips on print materials, CDs and DVDs. It also features an intuitive interface, ergonomic design and injection molded plastic for durability. **Model 942 is UL-certified. Meets the WEEE and RoHS Directives.**

**b Bookcheck Unit Model 943** Includes all Model 942 functionality and adds a barcode scanner, allowing interface with the library ILS and enabling both check-in/checkout and security strip processing in one easy step. **Model 943 is UL-certified. Meets the WEEE and RoHS Directives.**

**c Mediacheck Model 325** Insert videos, DVDs, or CDs and security strips either resensitize or desensitize. It's quick, reliable, and there's no need to remove media from the case. Process up to two videos or six CDs at once. It also processes print media. **Model 325 is UL-certified. Meets the WEEE and RoHS Directives.**

**d Desensitizer Model 763** This unit processes audiocassettes and videocassettes. With continuous desensitization, it's fast and efficient.

**e Desensitizer Model 930** This fast, efficient device adapts to virtually any checkout configuration and is ideal for high-volume checkout-only operations. It safely desensitizes Tattle-Tape™ Security Strips on print materials and CDs. **Model 930 is UL-certified.**

**f Handheld Desensitizer Model 766** This device rapidly processes non-print media at checkout. Simply pass the unit over the security strip, and it's safely desensitized. There's no need to remove cassettes from their cases, so it's ideal for checking out books on tape.

**g Resensitizer Model 764** This electrical portable unit fully resensitizes Tattle-Tape™ Security Strips on print materials and CDs, ensuring a fully secured collection. Print materials are resensitized in one pass, CDs in two passes. A green light signals that the unit is operating. **Model 764 is UL-certified. Meets the WEEE and RoHS Directives.**

**h Resensitizer Model 2011** This portable tabletop device resensitizes 3M DVM-1 and DAC-1 Security Strips. It's completely safe for all magnetic media, including audiocassettes and videocassettes, and provides continuous resensitization. Security strips are resensitized in one pass.

**i Red Tag Disc Media Protection System** A secure solution that eliminates the need to store a disc separately from the case. The disc is locked in place simply by inserting the locking tag into a case and passing it under the hub of the disc. At checkout, the tag can be removed in seconds. Each tag is reusable and extremely durable, reducing costs and providing the level of security you need.
