

Sensormatic® Digital Pro-Max® IV

The Sensormatic® Digital Pro-Max® IV System couples advanced digital technology with Ultra•Max® Acousto-Magnetic capability to deliver superb wide exit anti-shoplifting protection. Used by some of the world's leading retailers, the system covers exits up to 10.7 m (35 ft.) wide using four pedestals. This system is especially popular with mall retailers, home centers, discount retailers, and others who value reliable, high detection performance.

Each pedestal features integrated visual and audible alarms to help ensure attention to detected tags or labels. The alarm light is built into the top portion of the pedestal. The speaker alarm is located in the center section. Multiple pedestal systems can be set up for zone detection, which activates alarms on only the pedestal nearest to where the tag or label is detected. Zone detection can help store personnel quickly pinpoint the location of a detection event.

Features / Benefits

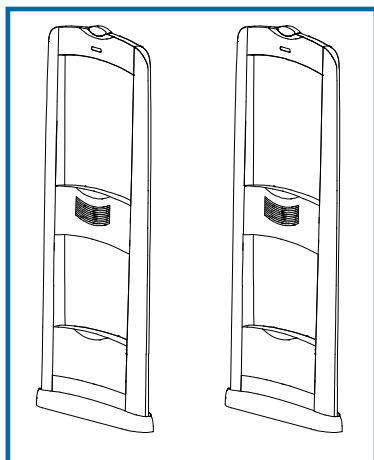

- **Digital Signal Processing.** The digital controller delivers impressive detection performance, false alarm avoidance, and automatic adjustment to environmental noise.
- **All weather design/improved aesthetics.** The system offers an all-weather pedestal in dark brown that can be installed outdoors without an additional cover. The indoor pedestal is light gray. The high impact plastic design helps ensure attractive appearance and durability.
- **Integrated visual and audible alarms.** Built-in alarms help ensure attention to detected tags or labels, while eliminating the need for a separate remote alarm unit.
- **Zone detection.** Alarms only the pedestal that detects a tag or label.
- **Alarm counter.** Two pedestal styles are offered, one with a built-in digital alarm counter at eye-level and the other with an optional digital alarm counter on the base.

Product Compatibility

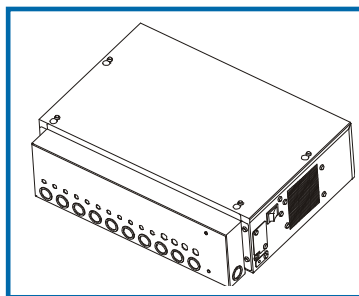

At the heart of the Digital Pro-Max® IV performance is the AMS-9040. This controller can power up to eight antennas; depending on the configuration, is a four-channel transceiver with four relays, and can power two remote accessories. In addition to the relays, the controller has independent alarm control of antennas and can interface with video linking or alarm logging devices. This capability provides flexibility in designing the most cost-effective, performance-driven exit solution possible.

Sales/Installation Consideration

Each pedestal features integrated visual and audible alarms to help ensure attention to detected tags or labels. The alarm light is built into the top portion of the pedestal and the speaker alarm is located in the center section. Multiple pedestal systems can be set up for zone detection, which alarms only the pedestal nearest to where the tag or label is detected. Zone detection can assist store personnel quickly pinpoint the location of a detection event.

Digital Pro-Max® IV Pedestal
 Height: 159 cm (62.5")
 Width (pedestal): 68 cm (26.75")
 Width (base shroud): 72 cm (28.5")
 Thickness (base shroud): 10 cm (4")
 Weight: 15.4 kg (34 lbs.)

AMS-9040 Controller
 Length: 50.7cm (20")
 Width with bracket: 43.4cm (17.1")
 Width without bracket: 32.2cm (14.3in)
 Height: 15cm (5.9")
 Weight: 7.3kg (16.15lbs.)

Eye-level built-in digital alarm counter

System (complete) Product Codes

- ZAPM4-1 Digital Pro-Max® Single Antenna System – Standard indoor
- ZAPM4-2 Digital Pro-Max® Dual Antenna System– Standard indoor
- ZAPM4-3 Digital Pro-Max® Split Antenna System– Standard indoor
- ZAPM4-4 Digital Pro-Max® Quad Antenna System– Standard indoor
- ZAPM4-FC1 Digital Pro-Max® Single Antenna System – Standard indoor w/Face counter
- ZAPM4-FC2 Digital Pro-Max® Dual Antenna System– Standard indoor w/Face counter
- ZAPM4-FC3 Digital Pro-Max® Split Antenna System– Standard indoor w/Face counter
- ZAPM4-FC4 Digital Pro-Max® Quad Antenna System– Standard indoor w/Face counter
- ZAPM4-OD1..... Digital Pro-Max® Single Antenna System – Outdoor
- ZAPM4-OD2..... Digital Pro-Max® Dual Antenna System– Outdoor
- ZAPM4-OD3..... Digital Pro-Max® Split Antenna System– Outdoor
- ZAPM4-OD4..... Digital Pro-Max® Quad Antenna System– Outdoor
- ZE9040..... Digital Power Pack

Optional Product Codes

- ZPALARM-G..... Gray Remote Tone Alarm
- ZPALARM-W White Remote Tone Alarm
- ZPALARM-GMU... Gray Remote Message Alarm
- ZPALARM-WMU.. White Remote Message Alarm
- ZPDCNTR Antenna Base counter – re-settable
