

# Imation Dry Head Cleaning Products

## FOR NETWORK TAPE STORAGE SYSTEMS

### Why should you clean your drive?

The cleaning process is unique to each drive format. Regular cleaning of the drive reduces build-up or stains that have been deposited on the head.

### Ensure data integrity with Imation products

There's no need to risk permanent data loss because Imation makes a dry head cleaning product compatible with most network systems, all backed by Imation quality. Make Imation's easy-to-use cleaning cartridges a part of your network system protocol and ensure data integrity.

### What are the benefits of dry head cleaning?

Some cleaning systems use liquid chemicals that are messy and hard to work with. Imation's Dry Head Cleaning Products use a process that is totally dry, eliminating the application of messy (and possibly hazardous) chemicals. In addition, dry head cleaning is virtually hassle-free. All you do is insert the Imation Dry Head Cleaning Cartridge into your drive. The cleaning process itself is automatic and total cleaning time is as fast as twenty seconds versus five minutes for wet-type cleaners.

### TRAVAN™ DRIVE Head Cleaning Cartridge

- Compatibility: Travan, Travan NS, certified auto loaders and tape libraries
- Number of cleanings: 30
- Reorder number: 51122-12132

### SLR™/MLR™ DRIVE Head Cleaning Cartridge

- Compatibility: SLR and MLR drives, certified auto loaders and tape libraries
- Number of cleanings: 50
- Reorder number: 51122-12094

### 4mm DRIVE Head Cleaning Cartridge

- Compatibility: All 4mm DDS and DataDAT drives
- Number of cleanings: 30–50 (drive dependent)
- Reorder number: 51111-45382

### 8mm DRIVE Head Cleaning Cartridge

- Compatibility: All 8mm data storage hardware
- Number of cleanings: 12–36 (drive dependent)
- Reorder number: 51111-45838

### Mammoth™ DRIVE Head Cleaning Cartridge

- Compatibility: All Mammoth drives
- Number of cleanings: 18
- Reorder number: 51122-41264

### DLTape™ DRIVE Head Cleaning Cartridge

- Compatibility: DLT 2000, 2700XT, 4000, 7000 and 8000 series drives
- Number of cleanings: 20
- Reorder number: 51122-12919

### ULTRIUM™ DRIVE Head Cleaning Cartridge

- Compatibility: All Ultrium 1, Ultrium 2 and Ultrium 3 drives
- Number of cleanings: 15–50+ (drive dependent)
- Reorder number: 51122-15931

### SDLT DRIVE Head Cleaning Cartridge

- Compatibility: SDLT 220, SDLT 320 and SDLT 600 drives
- Number of cleanings: 20
- Reorder number: 51122-16332
