3M™ Detection System (Model 8800)

Solid RFID security

In addition to providing security, the Model 8800 is completely safe for all magnetic media. Along with an integrated traffic counter, the system features an optional voice alarm that plays a customizable message. The system accurately identifies items that haven't been properly checked out. Designed to fit into a variety of floor plans and décors—in compliance with ADA requirements—the Model 8800 has a variety of mounting options: direct mount, base plate or buried cable. While no application server is required, optional electronics outputs allow libraries to add other security features.

Security Coverage

- Assists in prevention of unauthorized removal of library materials
- Completely safe for magnetic media
- Digital counter tracks number of customers

Customizable

- Optional electronics output lets libraries add security features

Mounting Options

- Direct mount, base plate or buried cable
