Remarkably slender exit detectors

Sleek and slender, Sensormatic Digital Door-Max detectors require minimal space, leaving doorways free and clear for shoppers and freeing up valuable selling space. At the same time, they provide a visual deterrence to would-be shoplifters.

Contemporary acrylic design with an upscale, attractive appearance

Sensormatic Digital Door-Max complements any store décor, whether in a mall location or a stylish boutique.

High detection performance

Only Ultra•Max technology offers the kind of detection performance that Sensormatic Digital Door-Max delivers. The system covers a full 6.2 ft. (1.9 m) distance and with digital technology accurately identifies tags and labels in all types of store environments.

Built-in visual and audible alarms

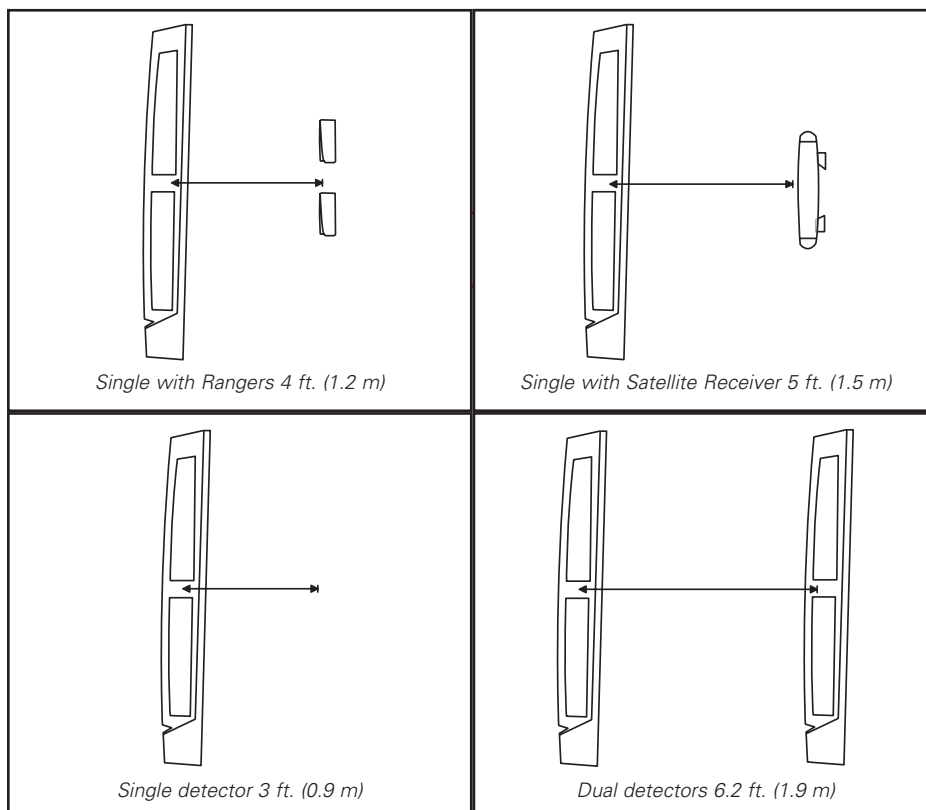

Built-in alarm lights and audible alarm immediately draw the attention of store personnel to the system. An optional alarm counter helps management assess anti-shoplifting measures.

Offers include a choice of single or dual system

Narrow doors or wide doors?
Sensormatic Digital Door-Max

Features

- High detection performance
- Compatible with all Ultra•Max labels and hard tags
- Self adjusts to changing electronic noise levels
- Slim, attractive appearance

covers both with a choice of a single detector system for openings 3 ft. (0.9 m) wide or dual systems for opening 6.2 ft. (1.9 m) wide.

Detector Dimensions

(LWD) 72.4 x 9.4 x 1.7 in.
(183 x 24 x 4.4 cm)

Compatible with auxiliary receivers

For exits of 4 or 5 feet (1.2 – 1.5 m), a single detector with either Ranger receivers or a Satellite Receiver offers a cost effective alternative with comparable detection performance.

Easy to install

The Sensormatic Digital Door-Max detectors can be mounted on a variety of surfaces, including wood, metal, glass, concrete, or gypsum wallboard.
